### 2025/2026 Budget

# **Executive Summary**

The budget comprises expenditure of \$13.6 million including operating expenditure of \$9.6 million and capital expenditure of \$4.0 million. Overall, the budget continues deliver of the Corporate Business Plan including the Shire's capital program and ensures funding for the extensive services provided by the Shire including Homecare.

The headline investment is tackling staff accommodation by proposing a funding model for the staff accommodation strategy. This program will result in the renewal of the Shire's housing stock and introduce new properties into the private market.

The 2025/26 budget proposes to fund more community budget requests, ensure key facilities like the pool and recreation centre are maintained and improve community safety through investment in additional CCTV capacity.

The budget reflects increases in salary costs resulting from wage decisions. The budget proposes increases to FTE to deliver Homecare and proposes a 1.4 increase in FTE through the employment of a second part-time nurse and four casual staff to deliver Homecare services.

The budget reflects that agility is required in budget setting. The Shire is grants dependent to achieve many of its capital and discretionary operating projects. Many of these grants are opportune and rely on co-contributions from the Shire.

### Rates Income

In determining the quantum of rates to be raised in 2025/26, the Council has taken a number of factors into consideration such as inflation (Consumer Price Index), increasing local government sector costs (Local Government Cost Index) and wages growth to assist Council in determining the annual percent rate increase.

Given the current levels of CPI and LGCI, in order to keep pace with predicted economic growth, the budget has been formulated with an overall increase of 3.75% in rate revenue.

The minimum rates will increase from \$675 to \$775 (15%). This is for two reasons. First, to achieve greater equity in rating practice with local governments in our area and second as a measure to encourage land activation for minimum rate properties in the townsite. The budget also incorporates a 2.35% on non-minimum rates. The combined minimum and non-minimum rates show a proposed increase of 3.75% yield in revenue.

This year the Shire has continued with differential rating within the GRV category. This followed on from the revaluation of GRV properties carried out by the Valuer General in 2022/23 which saw a wide variance between commercial and residential property value increases. By adopting differential rates, it is possible to set a different rate in the dollar for each sub-group and thereby make a more equitable change for everyone. Rate increases assist in provision of service delivery that meets reasonable community needs.

A new UV differential rate category for commercial energy generation and storage has been introduced. This is for farmland properties that have a commercial energy generation and storage development, such as windfarm of battery storage. There will not be any properties impacted by this differential rate in the next few years.

While acknowledging the symbolic aspect, the Shire of Wagin aims to be proactive and give advance notice to ratepayers and power producers of the proposal as the onset of windfarms and the like will involve significant regulatory and other costs for the Shire. Wind farms are expected to have a significantly greater financial impact on the Shire compared to traditional farmland.

### **Grants**

Part of the annual Commonwealth Financial Assistance Grant (\$1,053,778 or 54%) was paid in advance in June 2025 and was classified as 2024/25 income. The remaining figure for 2025/26 is estimated at \$884,210.

Regional Road Group funds of \$468,405 have been allocated to Beaufort, Ballagin and Jaloran Roads.

Roads to Recovery funding of \$499,422 funds will be spent on Bockaring, Bullock Hills and Behn Ord Roads. It is expected that the untied Direct Road Grants amount will increase to \$195,875

A year on year comparison of major grant income is outlined below:

Grant	2025/26	2024/25
General Purpose Grant	\$1,264,297	\$1,264,297
General Purpose Road Grant	\$657,898	\$657,898
Roads to Recovery	\$499,422	\$549,364
Road Project Grant	\$468,405	\$372,268
Road Direct Grant	\$195,875	\$190,170

### Reserve Accounts

The Council commences the new financial year with \$3,882,059 in its reserve accounts. This budget includes transfers to and from reserves and interest with a predicted increase overall in reserve funds of \$678,690. The proposed transfers are shown on page 18 of the budget. The projected closing balance of \$4,560,749 at the end of the 2025/26 financial year.

### **Debt Servicing**

The outstanding loan principal at 1 July 2025 is \$322,250 inclusive of Self - Supporting Loans. The principal repayments for 2025/26 amount to \$76,165 and interest payable \$17,682 (incl Government Guarantee). A new loan of \$1.6million is proposed for the long term staff housing project, leaving a balance of \$1,846,085 at 30 June 2026.

The self- supporting component of the above loan balance as at 1 July 2025 is \$89,992 with principal repayments of \$25,331 and interest of \$4,355. The self-supporting loan balance will be \$64,662 at 30 June 2026.

## Capital Works Program

The Capital Works Program totals \$3,930,828. This is split into the following categories:

Note 13	Fees and Charges	24

### **1 BASIS OF PREPARATION**

The annual budget of the Shire of Wagin which is a Class 4 local government is a forward looking document and has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

### Local Government Act 1995 requirements

Section 6.4(2) of the Local Government Act 1995 read with the Local Government (Financial Management) Regulations 1996 prescribe that the annual budget be prepared in accordance with the Local Government Act 1995 and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The Local Government (Financial Management) Regulations 1996 specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 Leases which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this annual budget have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the annual budget has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities

### The local government reporting entity

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this annual budget.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 10 to the annual budget.

### 2024/25 actual balances

Balances shown in this budget as 2024/25 Actual are estimates as forecast at the time of preparation of the annual budget and are subject to final adjustments.

### **Budget comparative figures**

Unless otherwise stated, the budget comparative figures shown in the budget relate to the original budget estimate for the relevant item of disclosure.

### Comparative figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

### Rounding off figures

All figures shown in this statement are rounded to the nearest dollar.

### Statement of Cashflows

Investing and financing transactions that do not require the use of cash or cash equivalents shall be excluded from a statement of cash flows. Such transactions shall be disclosed elsewhere in the financial statements in a way that provides all the relevant information about these investing and financing activities.

### Initial application of accounting standards

During the budget year, the below revised Australian Accounting Standards and Interpretations are expected to be compiled, become mandatory and be applicable to its operations.

- AASB 2020-1 Amendments to Australian Accounting Standards
- Classification of Liabilities as Current or Non-current
- AASB 2022-5 Amendments to Australian Accounting Standards
- Lease Liability in a Sale and Leaseback
- · AASB 2022-6 Amendments to Australian Accounting Standards
- Non-current Liabilities with Covenants
- AASB 2023-1 Amendments to Australian Accounting Standards
- Supplier Finance Arrangements
- AASB 2023-3 Amendments to Australian Accounting Standards
- Disclosure of Non-current Liabilities with Covenants: Tier 2
- AASB 2024-1 Amendments to Australian Accounting Standards
- Supplier Finance Arrangements: Tier 2 Disclosures

It is not expected these standards will have an impact on the annual budget.

• AASB 2022-10 Amendments to Australian Accounting Standards
- Fair Value Measurement of Non-Financial Assets of Not-for-Profit Public
Sector Entities, became mandatory during the budget year. Amendments
to AASB 13 Fair Value Measurement impacts the future determination
of fair value when revaluing assets using the cost approach. Timing of
future revaluations is defined by regulation 17A of Local Government (Financial
Management) Regulations 1996. Impacts of this pronouncement are yet to be
quantified and are dependent on the timing of future revaluations of asset classes.
No material impact is expected in relation to the 2025-26 statutory budget.

### New accounting standards for application in future years

The following new accounting standards will have application to local government in future years:

- AASB 2014-10 Amendments to Australian Accounting Standards
- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture
- AASB 2024-4b Amendments to Australian Accounting Standards
   Effective Date of Amendments to AASB 10 and AASB 128
- [deferred AASB 10 and AASB 128 amendments in AASB 2014-10 apply]
- AASB 2022-9 Amendments to Australian Accounting Standards
- Insurance Contracts in the Public Sector
- AASB 2023-5 Amendments to Australian Accounting Standards
- Lack of Exchangeability
- AASB 18 (FP) Presentation and Disclosure in Financial Statements
- (Appendix D) [for for-profit entities]
- AASB 18 (NFP/super) Presentation and Disclosure in Financial Statements
- (Appendix D) [for not-for-profit and superannuation entities]
- AASB 2024-2 Amendments to Australian Accounting Standards
- Classification and Measurement of Financial Instruments
- AASB 2024-3 Amendments to Australian Accounting Standards
- Standards Annual Improvements Volume 11

It is not expected these standards will have an impact on the annual budget.

### Critical accounting estimates and judgements

The preparation of the annual budget in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the financial report.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:

- Fair value measurement of assets carried at reportable value including:
  - Property, plant and equipment
  - Infrastructure
- Expected credit losses on financial assets
- Assets held for sale
- · Impairment losses of non-financial assets
- · Investment property
- Estimated useful life of intangible assets
- Measurement of employee benefits
- · Measurement of provisions

The Shire did not raise specified area rates for the year ended 30th June 2026.

All rateable properties within the district used predominately for non-rural purposes are rated according to their Gross Rental Valuation (GRV), all other properties are rated according to their Unimprovec

The general rates detailed for the 2025/26 financial year have been determined by Council on the basis of raising the revenue required to meet the estimated deficiency between the total estimated experior proposed in the budget and the estimated revenue to be received from all sources other than general rates and also considering the extent of any increase in rating over the level adopted in the previous

The minimum payments have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of local government services/facilities.

### (c) Objectives and Reasons for Differential Rating

To provide equity in the rating of properties across the Shire the following rate categories have been determined for the implementation of differential rating.

### (i) Differential general rate

Description	Characteristics	Objects	Reasons
GRV Non-Commercial	Land & properties with a predominantly residential use	The object of the rate is to be the base by which all other GRV properties are assessed.	The reason for the differential rate is to ensure that all ratepayers make a fair and equitable contribution towards works, services and facilities within the Shire.
GRV Commercial	Land & properties with a predominantly Commerical or Industrial use.	The object of the rate for this category is to raise additional revenue to contribute towards the budget deficiency.	The higher rate reflects the additional costs associated with the higher level of services provided to the properties in this category. These services include carparking, landscaping and other amenities including costs associated with tourism and economic development that are of benefit of these ratepayers.
UV General	Land & properties that are predominantly of a rural purpose including mining tenements.	This rating category are properties that are used exclusively for rural use – either residential or commercial and mining tenements. This rate contributes to the services desired by the community.	The reason for this rating category is to ensure that all ratepayers make a reasonable contribution to the cost of providing works, services and facilities within the Shire. This is considered the base rate above which all other UV properties are assessed.
UV Commercial energy generation and storage	Land & properties that are predominantly of a rural purpose including mining tenements.	The object of the rate for this category is to raise additional revenue to contribute towards the budget deficiency than UV - General properties.	The higher rate reflects the additional costs associated with the regulatory and other costs associated with farmland properties that have a commercial energy generation and storage development, such as windfarm or battery storage.

### (ii) Differential Minimum Payment

There is no differential Minimum Payment. The Minimum Payment has been set at \$775 across all categories.

### (d) Variation in Adopted Differential Rates to Local Public Notice

The is no variation between the the adopted differential rates and those in the Local Public Notice.

### 3. NET CURRENT ASSETS

### (d) MATERIAL ACCOUNTING POLICIES

### **CURRENT AND NON-CURRENT CLASSIFICATION**

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operational cycle. In the case of liabilities where the Shire does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire's intentions to release for sale.

### TRADE AND OTHER PAYABLES

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the financial year that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

### PREPAID RATES

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire recognises revenue for the prepaid rates that have not been refunded.

### **INVENTORIES**

### General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

### SUPERANNUATION

The Shire contributes to a number of superannuation funds on behalf of employees. All funds to which the Shire contributes are defined contribution plans

### INVENTORY - LAND HELD FOR RESALE

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Inventory - land held for resale is classified as current except where it is held as non-current based on the Shire's intentions to release for sale.

### **GOODS AND SERVICES TAX (GST)**

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

### **CONTRACT LIABILITIES**

Contract liabilities represent the Shire's obligation to transfer goods or services to a customer for which the Shire has received consideration from the customer.

Contract liabilities represent obligations which are not yet satisfied. Contract liabilities are recognised as revenue when the performance obligations in the contract are satisfied.

### TRADE AND OTHER RECEIVABLES

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for grants, contributions, reimbursements, and goods sold and services performed in the ordinary course of business.

Trade and other receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing components, when they are recognised at fair value.

Trade receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

The Shire applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, rates receivable are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

### **PROVISIONS**

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

### **EMPLOYEE BENEFITS**

### Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the determination of the net current asset position.

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the determination of the net current asset position.

### Other long-term employee benefits

Long-term employee benefits provisions are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

### CONTRACT ASSETS

Contract assets primarily relate to the Shire's right to consideration for work completed but not billed at the end of the period.

### 4. RECONCILIATION OF CASH

For the purposes of the Statement of Cash Flows, cash includes cash and cash equivalents, net of outstanding bank overdrafts. Estimated cash at the end of the reporting period is as follows:

### **MATERIAL ACCOUNTING POLICES**

### **CASH AND CASH EQUIVALENTS**

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are shown as short term borrowings in current liabilities in Note 3 - Net Current Assets.

### FINANCIAL ASSETS AT AMORTISED COST

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

### **MATERIAL ACCOUNTING POLICIES**

### **RECOGNITION OF ASSETS**

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A* (5). These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

### GAINS AND LOSSES ON DISPOSAL

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

### 6. DEPRECIATION

### **By Class**

Buildings - non-specialised Furniture and equipment Plant and equipment Infrastructure - roads Infrastructure - drainage Other infrastructure and footpaths

### **By Program**

Governance
Law, order, public safety
Health
Education and welfare
Community amenities
Recreation and culture
Transport
Economic services
Other property and services

### **MATERIAL ACCOUNTING POLICIES**

### **DEPRECIATION**

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Major depreciation periods used for each class of depreciable asset are:
Buildings - non-specialised
Furniture and equipment
Plant and equipment
Infrastructure - roads
Infrastructure - drainage
Other infrastructure and footpaths

### **AMORTISATION**

The depreciable amount of all intangible assets with a finite useful life, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held for use.

The assets residual value of intangible assets is considered to be zero and useful live and amortisation method are reviewed at the end of each financial year.

Amortisation is included within Depreciation on non-current assets in the Statement of Comprehensive Income.

### **MATERIAL ACCOUNTING POLICIES**

### **BORROWING COSTS**

The Shire has elected to recognise borrowing costs as an expense when incurred regardless of how the borrowings are applied.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature.

Borrowings fair values are based on discounted cash flows using a current borrowing rate.
